HP Photo Center Instant Print Solution

The HP Photo Center Instant Print solution is a scalable, front-of-counter in-store photo solution that enables retailers to increase revenues by offering new, innovative in-store creative photo products without adding dedicated photo department labor.

The HP Print solution produces vibrant, lab-quality 4x6 and 5x7-inch prints using the fast and versatile HP Photosmart PM2000e Microlab Printer. It allows consumers to place their orders and return later to claim their items using a secure order storage and release feature—saving them time while they shop in the HP Print solution store.

Consumers can also order 8x10-inch prints and creative products such as collage prints, cards, year-on-a-page calendars, CD or DVD archives, and professional-looking single-sided photo books that can be assembled in just seconds by a retail associate in a nearby department.

The HP Photo Center Instant Print Solution brings to the retail environment, new high-margin prints and photo products, driving both increased traffic and profits while decreasing labor costs.

¹Based on 200+ years display permanence rating by Wilhelm Imaging, Research, Inc. using six-ink HP Vivera pigment inks on supplied HP photo paper. "Best overall image permanence of any consumer 4x6 prints in the entire 130-year history of color photography"—Henry Wilhelm, Wilhelm Imaging Research, Inc.

Benefits

- Install up to six input stations without adding dedicated labor
- Features an intuitive touchscreen interface that guides consumers through each step of the create and order process
- Non-intrusive up-sell screens encourage additional purchases
- 4x6 and 5x7-inch products print immediately and are delivered into one or more of the HP PM2000e secure order storage bins
- A secure order and retrieval process allows your customers to shop while their order is being printed, then come back to claim their completed order when convenient
- Once printed, consumers scan a claim ticket for vending-machine style delivery
- Includes high-capacity cut-sheet media trays that can be topped off at the convenience of store associates
- Includes HP's Retail Management System (RMS) to monitor the health of each Photo Center component; remotely upgrade firmware and software; configure products, pricing and settings; and get online reporting of sales, order and usage data
- Retailers can offer licensed content for use in more than 18 in-store creative photo products, choosing from over 200 themes and content from their favorite brands, such as Dr. Seuss, Marvel Comics, Norman Rockwell, Star Trek, Nickelodeon and more
