

# HP Photosmart Creative Printer

Versatile, cost-effective CL2000 photo printing solution

The HP Photosmart Creative Printer, part of the HP Photo Center, is a reliable solution for high-quality prints. The no-compromise, high-capacity, 6-toner system delivers outstanding photo album image quality.

### Small size, superior output

At only 4 square feet, the versatile HP Photosmart Creative Printer is a space-efficient instant digital print solution designed to easily plug into your existing lab infrastructure.

HP ColorSphere technology provides increased gloss and improved image contrast for impressive photo books, calendars and greeting cards.

### Fast and powerful

The HP Photosmart Creative Printer yields maximum results with minimum effort.

Four input trays keep customer projects moving and support a range of media sizes and products, from 5 x 7 inch cards and prints to 11.69 x 12-inch photo book pages and calendars—all printed at speeds of up to 16 full-color pages per minute, based on average album size.

### Reliable performance for increased revenue

Because the system doesn't use photographic chemicals, no special training is required to operate or maintain it. There is no mess, no unpleasant odor, and no special disposal or venting required.

Nor do employees need to engage in the physically demanding, training-intensive chore of replacing dye sublimation or traditional paper rolls. This workhorse printer uses high-quality, easy-to-replace, high-yield HP ColorSphere toner supplies, reducing the need for user intervention and keeping maintenance costs low. When replacement is necessary, the simple front-door access and intuitive cartridge system make the job easy.

### Low intervention rate

HP's advanced printing technologies reduce the number of required interventions and enable easy plug-and-play operation. Advanced Auto Navigation makes clearing jams effortless. The HP Photosmart Creative Printer features the lowest number of consumable parts in its printing category.

Plus, the HP Photosmart Creative Printer and supplies are backed by HP reliability and support for added confidence.

### Why choose HP's Photo Center?

HP Photo Center expands your retail business with high-margin, high-value products, giving your customers access to vibrant, lab-quality photos in minutes. Using the HP Photo Center's Input Station, your customers can easily produce professional-looking photo books, calendars, greeting cards and more. The HP Photo Center connects you with HP's innovative, reliable, clean and easy-to-use photo finishing solutions.
