

HP Enlargement Printer Expansion Kit

Versatile, cost-effective photo printing solution

The HP Photosmart Pro B9180 Photo Printer, part of the HP Photo Center, is a high-quality solution for printing photo enlargements. This no-compromise, 8-ink system delivers outstanding photographic image quality.

Professional photo quality

Using this professional photo printer, you can offer customers the ability to confidently—and consistently—create high-quality prints they'll be proud to share. Exclusive, new pigment-based HP Vivera inks are specially formulated for beautiful, life-like portraits, wide color range landscapes and custom fine art prints. Customers also can print black-and-white photos with perfectly neutral gray tones and deep black shadow reproductions. Photos printed on the HP Photosmart Pro B9180 Photo Printer offer exceptional durability—waterproof photos that resist fading for 200+ years.¹

Big options for you—and your customers

The HP Photosmart Pro B9180 Photo Printer is perfect for high-quality photo enlargements, supporting 5 x 7 and 8 x 10 photo paper.

Because the system doesn't use photographic chemicals, no special training is required to operate or maintain it or replace supplies. There is no mess, no unpleasant odor, and no special disposal or venting required. Plus, the HP Photosmart Pro B9180 Photo Printer and supplies all are backed by HP reliability and support for added confidence.

Key technologies

HP Vivera pigment inks offer outstanding image quality, along with fade and water resistance. HP's proprietary Electrosteric Encapsulation Technology optimizes the pigment chemistry and ink properties for stability and performance to ensure brilliant colors, outstanding print permanence and excellent gloss uniformity for reliable, accurate, consistent printing.

HP's 8-ink printing system includes four HP 70 Printheads, each printing two colors of ink with 1,056 nozzles per color. The system features HP Vivera pigment inks in five colors and three blacks. These inks deliver an exceptionally broad color gamut with superb neutral tones and deep blacks.

Why choose HP's Photo Center?

The HP Photo Center expands your retail business with high-margin, high-value products, giving your customers access to vibrant, lab-quality photos in minutes. Using the HP Photo Center's Input Station, your customers can easily produce professional-looking photo books, calendars, greeting cards and more. The HP Photo Center connects you with HP's innovative, reliable, clean and easy-to-use photofinishing solutions.

1. Fade results based on display-permanence testing under glass by Wilhelm Imaging Research using HP Advanced Photo Paper. See www.wilhelm-research.com for more information.
2. Approximate figures dependent upon type and print mode. Exact speed will vary depending on the system configuration.
3. Power requirements are based on the country/region where the product is sold. Do not convert operating voltages or use with other voltages. Doing so might cause damage that would not be covered under HP's product warranty.
