

HP Film Scanner Expansion Kit

Cost-effective, high-quality film scanning with the Pakon F335

The HP Film Scanner Expansion Kit lets your sales associates easily convert your customers' film and negatives into vibrant digital prints and other photo products, bringing additional revenues and profits into your HP Photo Center.

The F335 delivers increased throughput and productivity

The F335 offers higher resolution scanning and increased throughput for high productivity. It scans 35 mm and APS film, color negatives and color reversal film, as well as traditional and C-41 black-and-white film, producing up to 1,000 images per hour when scanning 35 mm film at 1400 x 2100 resolution. It creates images with resolutions up to 2000 x 3000 ppi, automatically correcting frame numbering and film-surface defects as it scans.

Why choose HP's Photo Center?

The HP Photo Center expands your retail business with high-margin, high-value products, giving your customers access to vibrant, lab-quality photos in minutes. Using the HP Photo Center's Input Station, your customers can easily produce professional-looking photo books, calendars, greeting cards and more. The HP Photo Center connects you with HP's innovative, reliable, clean and easy-to-use photo finishing solutions.
