

Photo Direct and Dust-Aid

Photo Direct is the Australia/New Zealand distributor for DUST-AID, a patent pending, DSLR camera sensor cleaning system that really works. In tests using a Fourier transform infrared spectrometer no residue was left on the crystal even after 100 applications.

Each Dust-Aid kit contains a reusable plastic wand, 12 sterile adhesive foam tapes and a user manual. The range has recently been extended to include – UltraClean Liquid, 3inOne DSLR Cleaner, Dust-Cloth, Dust Wand Kit, Cleaning Strip and Dust Shield.
